

SENSATION CREATED BY NEWSPAPER MEN

PHILIPPINE DISPATCHES HAVE BEEN MISLEADING.

Correspondents of American Newspapers Say the Public Has Not Received a Correct Idea of the Situation--Creates Alarm in Washington.

Washington, July 17.—[Special]—Round Robin from the American Newspaper correspondents in the Philippines has created a profound sensation in the war department.

Gen. Miles, who is acting secretary of war, refused to discuss the situation.

Secretary Alger's private secretary sent a brief message to his chief, Gen. Corbin, who professes no alarm.

He is annoyed by the message, however and refuses to discuss it.

President McKinley was shown a copy of the message and it is said that at tomorrow's cabinet meeting he will lay the matter before his advisers.

None of the cabinet officers would say anything other than that they were ready to consider the question if it should be brought up before them.

THE DISPATCHES ARE MISLEADING

Public Does Not Receive Correct Idea of Philippine Situation.

Hong Kong, July 17.—[Special]—The undersigned, all correspondents of American newspapers in Manila, unite in the following statement:

"We believe that owing to official dispatches from Manila as made public at Washington, the people of the United States do not receive correct impressions of the situation in the Philippines, and that those dispatches have presented an ultra optimistic view not shared by the general officers in the field. We believe that those dispatches have incorrectly represented the existing conditions among the Filipinos, respecting the internal dissensions and demoralization resulting from the American campaign, and the brigand character of their army. We believe that the dispatches err in the declaration 'that the situation is well in hand' and the assumption that the insurrection can be speedily ended without greatly increased force. We think the tenacity and purposes of the Filipinos are underestimated and that statements are unfounded that the volunteers are willing to give further service. Censorship has compelled us to participate in this misrepresentation by existing or altering uncontroverted statements and facts on plea, as Gen. Otis stated 'that they would alarm the people at home' or 'have the people in the United States by the ears.' Specifications of this are prohibition to send hospital reports and a number of heat prostrations in the field; suppression of full reports of field operations in event of their failure; a systematic minimization of naval operations and prohibition of complete reports of the situation. Bass and Dinwiddie, New York Herald; Davis and McDonell, New York Sun; Armstrong & McCutcheon, Chicago Record; Little, Chicago Tribune; Jones, Collins, Dunning, Associated Press; Keene, Scripps-McRae Press Association."

Manila, July 17.—The general good health of the American forces is shown by the hospital report for the last week, issued by the medical department Sunday. The report shows a total of 1,382 men under medical treatment, of whom 1,378 are in hospital and 511 in quarters. Details of diseases are as follows:

Typhoid fever, 23 cases; malaria, 173; intestinal troubles, 6; gastric troubles, 13; wounds and injuries, 116; exhaustion, 8; sunstroke, 1; contagious diseases, 10; undetermined diseases, 316; all others, 256; total in hospital, 1,378; sick in quarters, 511; grand total, 1,889.

This gives a sick rate of less than 10 per cent, and it is also to be noted that more than one-fourth of the men reported sick are not in such condition as to require sending them to hospital. These conditions compare very favorably with the conditions in the Philippines in the tropics. At its highest the sick rate has not exceeded 12 per cent, and the serious cases have never exceeded 6 per cent.

The total number of Americans wounded in action to date is 1,586. The number killed in action and died from wounds is 374. The losses of the rebels have been about five times those

of the Americans, notwithstanding the fact that the rebels did most of their fighting from intrenchments.

The personnel of the officers of the Thirty-Sixth and Thirty-Seventh volunteer regiments, which are now being organized here, has been completed. Col. Bell of the Seventh cavalry will command the Thirty-Sixth regiment, and Col. Wallace of Montana the Thirty-Seventh.

It is reported that the Filipino junta has purchased property on the island of Labuan, a British possession, six miles northwest of Borneo, preparatory to its removal there.

PLEASED WITH THE ENLISTMENTS.

Many Returning Volunteers Expected to Re-Enter the Service.

Washington, July 17.—Officials of the war department express themselves as pleased with the progress made in the organization of the ten new regiments for service in the Philippines. The records of the war department show there were 388 men recruited at the various stations Friday, making a grand total of 1,512 men. Although the records are not yet complete for Saturday, it is estimated by Gen. Corbin that as many as 400 recruits were mustered into the service that day. This would give a total for the week of nearly 2,000.

The colonels for the Twenty-Eighth and Thirty-Fourth regiments have not been appointed yet, and recruiting for these regiments has not been actively taken up. As soon as these selections have been made it is estimated at the war department that the recruiting totals will be greatly swelled. Army officers figure on the enlistment of a good many of the volunteers who have returned or are en route from the Philippines. It is believed that many of them, after a short visit home, will re-enter the service.

England's Pauper Population.

On Jan. 1, 1899, the total number of paupers receiving relief in England and Wales was \$21,238. As the population of the two countries is estimated at 31,397,078, the paupers relieved amounted to one out of every 38 persons, or 2.6 of the population. London city heads the list in regard to the number in receipt of relief, the total amounting to 123,665 persons. In Middlesex the outdoor pauperism is smaller than in 26 of the 45 counties. There is an increase in the number of insane paupers. This class has increased year by year from 20,975 in 1855 to 93,357 in 1899; London contributing to the relief of 5,592 indoor and 14,541, or a total of 20,133. The West Riding of Yorkshire comes next in the order of insanity with a total of 5,551.

Lord Curzon's Salary.

Harper's Weekly. India pays all her governors and lesser officers very well. England sees to that. As Viceroy, Lord Curzon of Kedleston will receive about half a million dollars—that is to say, about 20,000 pounds (or \$100,000) a year—during his term of five years. In addition to this, he has a very considerable allowance for expenses; but it is said that he will have to husband this allowance carefully to make as showy a regime as he very wisely intends to have. His gorgeous bodyguard of 120 men, in the garb of personified rain-bows, is cared for out of the Indian treasury, and I think, this is the case with the retinues of servants who man (and woman) each of his palaces.

Seven Times a Widow.

Senora Rey Castillo, a Mexican lady, surely holds the world's record for multiple widowhood, as she has worn the weeds seven times between the years 1880 and 1895. A curious feature of the case is that each of her consorts found a violent but different exit from life. The first fell out of a carriage; the second took poison by accident; the third perished by a mining accident; the fourth shot himself; the fifth was killed while hunting; the sixth met his death by dropping from a scaffolding; and the last was drowned.

The United States Crops.

If all the wheat, corn, oats, barley, rye, potatoes and hay raised in the United States in the year 1898 were loaded in carload lots of ten tons to a car, they would make a railroad train 106,100 miles long, being over thirty and a third times the distance from Boston to San Francisco, or a band of cars reaching four and one-fourth times around the world. The hay alone would fill a continuous train of cars reaching about fourteen times the distance from Boston to San Francisco.

STRIKERS MAKE DEMONSTRATIONS

Situation Unchanged in Brooklyn.

WALK OUT IS THREATENED ON THE ELEVATED TRAINS.

About One-Third of the Usual Number of Cars Being Run On Some of the Main Lines—From Midnight Until Morning Not a Wheel Turned—Deemed Safest Policy to Keep Cars in Barns—Organized Effort Made to Induce All Men Running Cars to Quit—Efforts in Most Cases Unsuccessful.

New York, July 17.—[Special]—The second day of the great strike in Brooklyn finds the situation unchanged.

On some of the main lines about one-third of the usual number of cars are being run.

From midnight until daylight not a wheel was turned, the company officials deeming it the safest policy to keep the cars in the barns.

A few demonstrations were made by strikers and sympathizers, but none were of a serious nature, though several arrests were made.

Thousands of workers were forced to walk across the Brooklyn bridge this morning.

The strikers threaten to force a tie up on the Brooklyn elevated trains.

An organized effort was made this morning to induce all the men running cars to strike, but in a vast majority of cases, the efforts were unsuccessful.

At noon today cars are running on every line in Brooklyn, but at reduced headway.

It looks this afternoon as though the strike had petered out.

It appears that the failure of the strike is due to inefficient leaders. It is intimated that the Brooklyn Elevated railway employees may go out.

Boston, July 17.—The labor troubles on the Boston & Maine and the New York, New Haven & Hartford railroad systems have reached a stage where a general strike seems probable unless the managements of the roads recede from their present positions. The strike would involve from 12,000 to 15,000 employees, and if successful would tie up both systems.

The Order of Railway Telegraphers is responsible for the present phase of the situation in seeking the adjustment of what the members consider grievances. The employees of other departments also have grievances, though, and will probably aid in a general movement to put the railroad employees of New England in a more favorable light.

The principal demands of the telegraphers are for a minimum salary of \$2 a day and for a day work of a fixed number of hours, with pay for overtime. It is asserted that at present many men who should be classed as telegraphers get as low as from \$30 to \$40 a month and work from 5 o'clock in the morning until late in the evening.

The employees say they are willing to submit the whole matter to arbitration provided the railroad companies will agree beforehand to abide by the decision. The managements of the two roads, on the other hand, refuse to recognize the power of the organization of employees to sign contracts or to treat with them in any way, though they say they are willing to take up individual grievances.

Efforts by the Order of Railway Telegraphers to have grievances adjusted having met with no adequate result, the next step is to get from the telegraphers employed by the roads an ability of a strike. Those on the Boston & Maine road are practically unanimous for such action. The vote has not yet been taken on the consolidated systems.

The next move will be to lay the matter before the executive committee of the American Federation of Railway Employees. This body will then try to arrange conferences with the managements of the roads involved. Failing in settling the trouble, as is likely, the federation will consider the advisability of ordering a strike.

BIG STRIKE IS ON AT NEW YORK.

Employees of the Brooklyn Surface and Elevated Lines Go Out.

New York, July 17.—The strike of employees of the Brooklyn surface and elevated railway lines, ordered by the local assemblies of the Knights of Labor, began at daylight. Not more than one-half of the regular employees of the Brooklyn Rapid Transit company obeyed the first summons. President Rosier of the traction company asserted that not one-fourth of his men had quit work, and that their places had been readily filled. The leaders of the strikers declared that more men had struck, but they had no figures.

Under protection of 1,500 New York policemen, aided by the entire Brooklyn force, cars were run on every line in the city almost on schedule time. The elevated roads were practically not at all affected. But at night some of the lines suspended operations through fear of trouble.

TAKES RANK WITH NATIONS.

New Far Reaching Treaties in Effect in Japan.

AMERICA THE PRIME MOVER.

Agreement with This Country Was Made as Long Ago as 1894—Japanese Minister at Washington Explains the Changes.

Washington, July 17.—A new treaty between the United States and Japan goes into effect to-day, at which time also new treaties between Japan and nearly all of the countries of Europe and some of the South American republics also go into effect. It is an event of far-reaching importance, as the many new treaties which go into effect place Japan on an entirely new footing with the world at large, and the nation is recognized for the first time as an equal in every respect.

The treaty with this country was made Nov. 22, 1894, in Washington, between Secretary Gresham and Minister Kureno, who then represented Japan here. The changes it made were so far-reaching that it was determined the treaty should not go into operation until July 17, 1899.

Mr. Jutaro Komura, the present Japanese minister in Washington, gave an outline of the important features. He said:

"The countries with which Japan has made new treaties are the United States, Great Britain, Germany, Russia, France, Austria, Italy, Spain, Belgium, Portugal, Holland, Sweden and Norway, Denmark, Switzerland and Peru."

"All of these go into effect to-day, except those with France and Austria, which are deferred until Aug. 4."

"With most of these countries Japan had treaty relations before, but they were crude and unsatisfactory."

"Henceforth the entire interior of the empire, with its populous cities and inviting fields of industry, is thrown open to foreigners. They may live anywhere, engage in any kind of business, and will be assured of the same protection to life and property that is given to the Japanese."

"In bringing about the new system of treaties Japan naturally feels most friendly toward the United States, because she always has shown a most sympathetic interest in Japan's desire to adopt modern methods, and to deal on even terms with the rest of the world."

"The messages of several of the presidents have spoken in most friendly terms of this matter. And so, as the government and people of the United States have taken such a friendly interest under the old system, I hope and believe that the United States government and people will take a most friendly interest in the carrying out of the new treaty."

MCKINLEY TO VISIT INDIANA.

Will Stop at Elwood and Other Cities on His Western Trip.

Anderson, Ind., July 17.—President McKinley has notified the republican managers of this county that he now stands ready to fulfill a promise which he made in September, 1892, when he was congressman. He opened the first tin plate plants in the nation at Seward, Sept. 4, that year. The event was made the occasion of a political powwow of state proportions. Republicans ran excursions from all sections of the state. It rained all day, completely spoiling the event. In his speech he lamented the fact, and made a promise to return some day when it was nice. The promise had almost been forgotten. He announces that he will make a trip west in October and will stop off at Elwood for a day. He will make another speech at Evansville. The state committee has been notified, and Indiana republicans are expected to do the rest.

NONE SO POPULAR.

It is Daily Gaining Favor in Janesville.

Results Reported From People Who Have Given a Fair Trial to the Remedy.

Morrow's Kid-ne-oids, the scientific kidney remedy and backache cure, is daily gaining favor in this city. No medicine has ever been sold in Janesville for kidney ailments, backache, nervousness, sleeplessness and general debility that has gained such popular favor as Morrow's Kid-ne-oids.

We give you the experience of Mrs. James Casey, 54 5th ave., says: "I have been troubled for two years with pain across the small of my back. I suffered a great deal from rheumatism in my shoulders and other symptoms of kidney trouble. I tried different kinds of kidney remedies, but failed to get relief. Recently I heard about Morrow's Kid-ne-oids and concluded to give it a trial. By using Kid-ne-oids I have been entirely relieved of kidney backache and rheumatism. My sore has been completely cured of backache, sick and nervous headaches, by using Kid-ne-oids and Morrow's Liveriax."

Morrow's Kid-ne-oids are not pills, but yellow tablets, and sell at fifty cents a box at all druggists and by The People's Drug Co.

SUMMER FANCY WORK.

Knitting Furnishes Fashionable and Pleasant Occupation.

Knitting is becoming once more a popular accomplishment. It will probably be in greater favor than ever this summer as convenient "pick up" work when lounging on piazza or lawn. A bit of delicate lace making is congenial occupation, and the practical woman knows also that she can in this way accomplish yards upon yards without conscious effort.

The accompanying design is given by The Designer, which says:

Knitted in fine thread this lace is very pretty to trim cambric underwear, while in knitting silk or saxony yarn it makes a good edging for flannel skirts. Without the scallops the directions would make pretty insertion to use with lace. If a heavier edge is desired for the scallops, a row of tiny crocheted shells may be added. The double row of small holes each side of

icted is just the pick of those latest to hand. The ones for evening wear speak for themselves, but it may be well to explain that the long day sleeve to the left expresses itself especially well in foulard, voile or soft satin, and the guipure, which clothes the fore part of the arm, is usually left transparent.

In Cherry Time.

A Cherry Tart.—Make a light open crust in a pie plate and bake; then fill with the cherries, seeded and stewed with sugar quite thick. Cover with a meringue and lightly brown this.

Cherry Salad.—Put in small glass tumblers first a layer of banana slices, cut across, then chopped orange slices, then either fresh cherries, stoned with a quill or the conserved cherries. Pour over all a spoonful of lemon juice. Set in a cold place until you serve, which should be soon, as the banana darkens after being cut.—Table Talk.

THIS DAY IN HISTORY.

1744—Elbridge Gerry, "signer" and statesman, born at Marblehead, Mass.; died 1814.
1745—Timothy Pickens, statesman, born in Salem, Mass.; died 1829.
1746—Peter Gansevoort, soldier, born in Albany; died 1812. Gave as major of the Revolutionary forces as major of the Second New York soon after Lexington. His services were chiefly in central New York, where he contended against the Indians and British. One of his victories was the defense of Fort Stanwix, where he defeated St. Leger and prevented his co-operation with Burgoyne.
1783—Charlotte Corday was guillotined for killing Marat.
1836—Lewis Cass, statesman, died at Detroit; born 1783.
1893—Thirty buildings in the business district of London burned; loss, £1,500,000.
1898—End of the war in Cuba; General Toral, Spanish commander at Santiago and vicinity, surrendered the city, with its garrison and all the outlying troops of his corps (about 24,000 in all), to Major General W. R. Shafter. The stars and stripes hoisted on the governor's palace in place of the flag of Spain.

AGUINALDO UNMASKS HIMSELF.

Aguinaldo is prejudiced. In his latest proclamation he says:

"Filipino! Beloved daughter of the ardent sun of tropics, commanded by Providence to the care of noble Spain, be not ungoverned by her salute who warmed thee with the breath of her own culture and civilization. It is true she sought to crush thy aspiration for independence, as a loving mother opposes the separation forever from the loving daughter of her bosom. This but proves the excess of love and affection Spain feels for thee."

In the above paragraph the crafty Filipino leader admitted the sovereignty of Spain. And if he admits the sovereignty of Spain, he must admit the sovereignty of the United States.

This paragraph sets forth all the hypocrisy in Aguinaldo's make-up, and shows that he is just what the people have always considered him—a crafty, designing schemer, who cares nothing for the Filipinos, but only seeks his own aggrandizement.

Lieutenant Sutton, of the Oregon volunteers, says: "If those Filipinos were left alone for three months they would annihilate one another. Most of the leaders are well educated men, with some sort of title and ambitious to run the whole works. They are suspicious and jealous of each other. The assassination of Luna is an example of the fate that will overtake many of the leaders."

Beloit Free Press—Mayor Rose, of Milwaukee, seems to have considerable trouble with his constituents in one way and another. The cause of it all may possibly be his secretary. His name is Szczerbowski and it is not likely that many can pronounce it in the mayor's presence without sneezing in his honor's face and thus exciting his wrath.

The intelligent Filipinos favor American rule, but they are but a small element of the population. In the judgment of the volunteer officers who have just returned from Manila, the rebellion must be utterly crushed before peace can be assured, even temporarily.

State Veterinarian Clute has appointed Dr. E. D. Roberts, of this city, as one of the experts to examine cattle shipped into Illinois, as is required by law. Dr. Roberts is one of the best known and most skilled of his profession in the state, and Dr. Clute has shown good judgment in appointing him.

The cycling page of Saturday's Milwaukee Daily News bristles with barbed illusions to the Janesville cycle meet. The News predicts that it will probably be the first and last meet ever conducted by the Janesville club, consisting of four persons.

During the first week after the call for volunteers was issued, 1,512 men were enlisted for Philippine service at the various recruiting stations—more than enough for one regiment. This is a pretty good indication of the sentiment of the people.

Pecks Sun—The fact that a man says eyether and nyther is no longer a sign that he has money to burn, a fireproof building with—he may simply be in training to win an heiress.

According to The Milwaukee Sentinel, it is likely that suits will be begun against the managers of the cycle races to collect the unpaid prize money!

Tom Eck will probably remember Janesville for a long time because of Sheriff Appleby's kindness, and because of—but what's the use.

An Oshkosh man thinks Dan Coughlin recently visited that city. Doubtless, and if he did not he certainly will.

Pennsylvania Democrats are angry because W. J. Bryan proposes to charge \$200 for making a speech at Scottsdale.

The question "where is Dan Coughlin?" bids fair to be as perplexing as "who killed Cronin?"

Now let the dead past bury its dead.

ALL trains will be run directly to Whitefish Bay on Thursday of this week for the grocersmen's picnic without change of cars. Trains run over the O. & N. W. R'y and the fair will be \$1.25 for the round trip.

Rev. Arthur C. Kempton gave a very interesting talk yesterday morning at the Baptist church, in the nature of a report of the Y. P. S. C. E. convention at Detroit. There was a very large attendance and all speak very highly of his able remarks.

THERE will be a cotillion at the club house August 1st for members of the Golf club and Country club. Those who wish to take part are requested to leave their names with the house committee consisting of George M. McKey, Charles C. Russell and H. M. Pulker before next Saturday, July 22.

CHESTER PAGE, who has been in our city for the past two months visiting with Dr. Mills, has returned to his home in Eau Claire county, Mich., improved in health. His aunt, Mrs. Mary A. Wood, going with him for a short visit with her sister. Mr. Page was well impressed with our city.

EVERYBODY is talking about the great event of the year, the grocersmen's picnic to Whitefish Bay, Milwaukee, Thursday of this week, and without doubt a great number of people will go. The fare of \$1.25 for the round trip is less than one cent a mile, and is lower than any rate ever offered to this point.

WHAT MONARCHS GET.

Boasting a Nation Generally Rather Laxative Employment.

It is generally conceded that, despite the various little inconveniences connected with the job, the king business is a good thing to embark in, and that if a man has a chance to jump in and boss a country he is a fool not to take it. The employment is almost without exception a very lucrative one, as the following statistics will show: "The czar of Russia receives over \$5,000,000 every year from the none too fat purse of his vast empire. Next after him follows the sultan of Turkey, with a grant of over \$3,500,000; then the emperor of Germany, with \$2,500,000. Even poor Italy, which has not the inducements to disburse huge sums of money that Turkey has in its absolute monarchy, and Germany in its great wealth manages to allow its king \$3,000,000, and Spain, bankrupt for years though it has been, has grant for the household of King Alfonso more than \$1,000,000. Emperor Franz Joseph receives from his dual monarchy \$4,500,000 per annum, half of which is paid by Austria and half by Hungary. His income from private property is said to be very considerable, but there are so many versions as to its exact amount that we must be excused from attempting to decide which appears most feasible. The total income, however, cannot well be less than \$6,000,000. Holland is a small country, with a population about the same as that of Greater London, and cannot, consequently, be expected to pay its monarch any fabulous sum. The young queen receives the comparatively small grant of \$25,000. Happily, however, the queen is possessed of very considerable private means, and she could probably get along without any difficulty were the grant entirely withdrawn.

AT THE MODERN DINNER.

Correct Laying of the Table—Little Points For Guests.

The serving, or "place" plates, as they are often designated, are the most beautiful and costly used throughout the entire dinner. Present form permits these to be put at each cover when the table is laid, the plates for the two first courses (oysters and soup) resting upon them. They are then removed, having served their purpose as ornamentals.

At the left of the plate is the napkin, within its folds the dinner roll. Directly in front of the plate is the individual salt, now (small as it is) an appointment of great beauty and expense. Sometimes a cut glass boat on silver waves, the saltspoon posing as an oar; again a half open crystal rose on a leaf of the wonderful Russian enamel. The water goblet and wineglasses stand at the left and are either grouped or "epiked," which means placed in a row diagonally out from the plate, beginning with the largest and ending with the tiny glass for cordial. Thus arranged, under artificial light they take up and flash back the rays with great brilliancy, making them very ornamental.

It is now the rule to use a fork instead of spoon wherever possible, so that the latter is almost banished from the modern table. Each course, however, requires a particular fork, making it a fine point with the uninitiated to determine between them when laid in a long row beside the cover. From this probably the method now adopted, which saves many mistakes and consequent embarrassment. When the table is laid, the fish, meat and entree forks are placed at the left of each cover; at the right the meat knife, soup spoon, a smaller knife, and the oyster fork. For all courses which follow the roast the silver for each is passed on a tray just before it is served.

After the dessert, or "service of sweets," as it is now termed, after dinner coffee, fruit and finger bowls are brought on. The coffee is put at the right and the finger bowl at the left of the fruit plate, the fruit knife and fork passed on the tray. In England butter is never used at dinner, and seldom of late years this side the water. If served, a tiny pat or ball on individual butter plate is put in front of each cover.

Besides the foregoing items of correct service, Table Talk says as to dinner etiquette: The refusal of wine needs no excuse. A look at the waitress will answer the same purpose as a temperance lecture and will be in better taste.

It is bad form to refuse a course, however distasteful it may be. It is courtesy to the hostess to take taste and trifle with it until removed rather than attract attention by declining it.

The little after dinner coffeespot, when not in use, is placed at the right of the cup in the saucer. Dip the soup spoon from you in the plate and lift the side toward you (never the point) to the lips. If an accident occurs (an overturned glass or the breakage of some piece of glass or china), express regret, but do not overwhelm yourself or the hostess with apologies.

Does Coffee Agree With You?

If not, drink Grain-O—made from pure grains. A lady writes: "The first time I made Grain-O I did not like it, but after using it for one week nothing would induce me to go back to coffee. It nourishes and feels the system. The children can drink it freely with great benefit. It is a strengthening substance of pure grains. Get a package today from your grocer. Follow directions in making it and you will have a delicious and healthful table beverage for old and young. 25c and 50c."

JOHN C. FREDENDALL CALLED BY DEATH

PROMINENT PIONEER BUSINESS
MAN PASSES AWAY.

Heart Failure the Cause of His Demise,
Which Occurred on Sunday Morning
At His Home in This City—Adam
F. Skelly Joins the Great Ma
jority.

John C. Fredendall, one of the pion
eer merchants of Janesville, died at his
home in this city at 4:30 o'clock Sunday
morning, aged seventy-two years.

Heart failure was the cause of his
demise, and death came peacefully. He
had scarcely been ill, and was about his
store Saturday as usual.

John C. Fredendall was born in the
town of Schoharie, Schoharie Co., N. Y.,
on September 23, 1825, and was a son of
Jacob and Margaret (Crouse) Freden
dall, the family being of German
nativity. His early life was spent upon
the farm, and he received a common
school education. At the age of twenty
one he engaged in stock buying, taking
cattle to New York City, and in 1851
entered the mercantile trade at Coble
skill, Schoharie county, continuing in
that business for six years. In 1857 he
came to Janesville and built a residence,
also buying a farm in the town of La
Prairie, which was cultivated until
1861. In the succeeding three years he
served as assessor of the city, and was
also engaged in other kinds of business.

Engaged in Grocery Business.

In 1864 he engaged in the grocery
business with James Eldred, under the
firm name of Fredendall & Eldred. Two
years later he disposed of his interest
in the business, and associated himself,
in the same line of trade, with his son
Ira and Mrs. Vankirk.

In 1868 Mr. Fredendall built the sub
stantial brick block in which his store
has since been located. The block is 44
feet front on South Main street, seventy
feet of Court street, and three stories
high. There is also an addition 40x50
feet and two stories high. He also
owned a flat building on Court street,
44x48 feet, and two dwellings on Acad
emy street.

On the completion of the block, Mr.
Fredendall took possession of the north
store for his grocery business. He car
ried on the business until a few years
ago, and then retired. Within the last
few months, tiring of inactivity, he
again opened a grocery store at the old
stand, being associated with Mr. Pick
ering.

In politics Mr. Fredendall was a Re
publican and had served several terms
as a member of the Janesville common
council.

Mr. Fredendall was twice married. In
1846, in his native county, he was mar
ried to Miss Laura W. Bailey. To them
three children were born. The eldest,
Ira, resides at Cheyenne, Wyoming,
where he has held the office of registrar
and treasurer of the county. He is now
in Cuba, with the United States army.
Charles died at Laramie City, Wyo.,
and Eugene resides in Janesville.

In 1874 Mrs. Fredendall died and in
1876 Mr. Fredendall was married to
Mrs. Ora Allen, the only daughter of E.
C. Smith, a prominent business man and
early settler of Janesville. She had one
child by her former husband, who mar
ried George Searcliff, Jr., of this city.

A Life Well Spent.
Mr. Fredendall began life poor, but
by frugality and excellent business
ability he had accumulated a large
property. He was a man of splendid
character and of strictly temperate habits.
He was always upright and prompt in
business affairs, and was one of the suc
cessful business men of the city. He
was a believer in the doctrines of the
Baptist church, and was a consistent
and valuable member of that congrega
tion.

Beside the widow and children, Mr.
Fredendall leaves two brothers and a
sister—Jacob Fredendall, who resides
on Racine street in this city; Abraham
Fredendall, of Washington, Kansas, and
Mrs. Katy Enders, of Clinton, Wis.

Adam F. Skelly passed peacefully to
the shadows of the unknown at 11:30
o'clock Saturday night. He had been
unconscious since last Friday evening.
April last he suffered a stroke of para
lysis from which he recovered sufficiently
to be able to resume labor, but his sys
tem was broken down, and life gradually
faded away. For several years he was
connected with the Janesville Steam
laundry, and later with the Riverside
laundry.

Mr. Skelly was the son of Mr. and
Mrs. Henry Skelly of this city, and was
a native of Janesville. He was born Au
gust 15, 1865, and was in the thirty
fourth year of his age at the time of his
death. On June 30, 1897, he was united
in marriage with Miss Minnie King of
this city. Besides a widow he leaves a
father and mother, a brother, Dan
Skelly, and a sister, Miss Hattie Skelly,
all of this city.

Mr. Skelly was a member of Olive
Branch Lodge No. 36, Ancient Order
United Workmen, having joined last
year, and carried an insurance of \$2,000.
He was a gentleman who commanded the
respect of all who knew him, and his
untimely departure is mourned by all
who extend their heartfelt sympathy to
the grief-stricken relatives.

The funeral will be held tomorrow af
ternoon at 2:30 o'clock, at the home, and
will be conducted by Rev. W. A. Hall,
pastor of the Court Street M.E. church.
The interment will be at Oak Hill cem
etery.

The funeral of the late Miss Bessie
Bell was held yesterday afternoon at 3
o'clock from the residence of Mrs. Mar
garet Hutton, sister of the deceased, 274

Wonders in Wash Waists

We will place on sale Tuesday, July
18, a great purchase of shirt waists
made last week by Mr. Simpson, who
visited the factories at Fort Wayne and
Indianapolis. The lot consists of 200
dozen shirt waists, more waists than
were ever before seen at one time in a
Janesville store. There is not a cheap
waist in the lot, that is there is not a
waist in the entire lot that was sold be
low \$9.00 per dozen and from that to
\$21.00, which would mean that they
are such as would regularly re
tail from \$1.25 to \$2.50. You
who have attended our former
sales of these lines will understand that
you may expect something out of the
ordinary. About half the lot are white
waists, now so very desirable; nearly all
are trimmed with rows of inserting or
tucking. Many of the colored waists
have white yokes, and every one is a
strictly proper 1899 waist. Our way of
securing such bargains enables us to
offer them in three lots and at the prices
they are without any question the great
est values ever offered at any similar
sale. The sizes are complete in every
style, running from 32 to 44, and the
entire 200 dozen—2,400 waists—will be
on sale beginning Tuesday at \$1.19, 89
cents, 69 cents.

THE ICEMAN.

His Job No Such Sinicure as the
Song Writer Pictures.

BY CYRUS SYLVESTER.

The Iceman has his troubles, inspired song writers to the contrary. The chief of these troubles is due to the fact that a gentle disposition and a deep respect for the criminal code prevent him from killing the man who wrote the doggerel about him and then set it to music.

The average Iceman, previous to the spring of 1890, was a cheerful soul. He whistled and sang at his work, swapped jokes with the grocery boy and the cook and went his way in peace. He endured hard work, long hours and small pay without a grumble.

But today he is a changed man. He is nervous and irritable. He looks with suspicion at his old time friends. He

"How'd you like to be the Iceman?" no longer whistles as he tramps down the area steps into the basement. He is morose, sullen and taciturn.

"It's like this," said he, for I had won his confidence. "I didn't mind it for the first week or two when nobody but the smart Alecks fired it at me. There are only about so many of them in the world anyway, and I kind of thought I'd get to the end after a while. But say, it's been growing worse and worse."

"First the servant girls took it up, one after another. Then a missus or two dropped. Then perfect strangers commenced the racket, and now I don't hear much else from early in the morning until late at night."

"It don't seem to wear out. They ring in repeaters on me. Why, do you know, an old mald customer of mine that I never knew to crack a smile in ten years came down the other morning to fix the ice box for me, and as I goes out the door she shoots after me: 'How would you like to be the Iceman? Te-he! te-he-he!' Now wouldn't that jolt your nerves?"

The words of the first verse of the all pervading music hall outrage run as follows:

While strolling up town the other day,
Saw a brownstone mansion on my way,
I stopped to admire, 'twas simply divine,
And couldn't help wishing that it was mine.
A servant came out, then I asked of him
If Mr. Vanderbilt was in.
I thought it the house of a millionaire,
But he told me that the Iceman resided there.
Then comes the chorus:

How'd you like to be the Iceman?
How'd you like to be the Iceman?
Now, this Iceman lives in a \$13-a-month house which in no way resembles any of the various Vanderbilt mansions. So much for one fallacy. The second verse of the song relates that—

Each day, with his wagon loaded down
Full of ice, he starts off for the town.
At Johnson's cafe a stop he makes,
Fills up the ice-box with enormous cakes.
When ready to start and move on his way,
He tells the boss, "It's hot today."
The boss, with a wink, says, "What'll it be?"
"Well, I'll have a tin roof cocktail—that just suits 'em."

I put the question as delicately as possible, intimating that I should think such quantities of free mixed drinks would be a great temptation to a sober man.

"Free drinks, eh?" snorted the indignant Iceman. "Say, that Johnson's cafe must be on some other route. I don't drink on the house once a month. Haven't tasted a cocktail in a year. When I wants a beer I have to put up my own cold for it too."

Another bit of poetic license on the part of the song writer evidently. Perhaps the easy manner in which the Iceman gets his groceries is also allegorical. The song runs this way, you remember:

The groceryman is just close by,
And the Iceman leaves him his supply.
Then orders ten pounds of coffee that's ground,
Ten pounds of butter, thirty a pound,
And ten pounds of sugar, ten pounds of tea.
"How many pounds in all?" says he.
The grocer then says, "Forty pounds are there!"
"Well, here's forty pounds of ice, so that makes 'em square."

I had not the heart to ask the Ice-

man if all this was true. I hinted that the popular idea seemed to be that his vocation was a pleasant and easy one.

"Oh, yes, it's a graft, nit," said the Iceman, dropping into colloquialism. "It's like having money on a winner. I don't think. Take me on Saturdays. I only works about 16 or 17 hours. It's just healthful exercise toying with 200 pound blocks. Then look at the walking I do; a 25 mile constitutional between breakfast and supper. Of course my pay is something pitifully. Well, it's \$2.50 per day now, but I'm expecting a cut. How'd you like to be the Iceman, eh?" he asked in irony.

"It's on the house trips that I get the worst roasting. I wouldn't mind filling big ice boxes all day long, but when it comes to the back door act I wish sometimes that I had learned to be a bank president by mail."

"Some women seem to think it's their duty to take time off and sass us. I struck some of them this morning. One opened up on me like this:

"Now, I want you to put the ice in the refrigerator yourself hereafter," says she. "And I want you to do it right. It'll be a sin and a shame if I have to superintend you every morning for the whole summer. All you've got to do this morning is to move the cream jug and the pitcher full of sour milk that I'm saving to make biscuits with, and the platter with the cold chicken bones and that bowl of cold asparagus and the tomatoes—pick 'em up one by one, so's not to bruise them—and that piece of lemon meringue pie—it's in a saucer—and the butter. You can just put them on the floor while you're putting the ice in, and then you can put them back on their shelves."

"How much ice did you say you wanted, ma'am?" says I.

"What I always get—a nickel's worth," says she. "Now, take care in getting those things out and putting them back again."

"You come along with me some morning in the tenement quarter," said the Iceman to me, "and you'll see what an upstostered, curled hair sort of a snap I have."

I promised to, not meaning to do it, but I happened to meet him soon after on his rounds. He was busy, so we did not talk, but I listened. A woman hailed him from a basement window.

"Hey, you!" she called in that severe tone which some people think it is proper to use in addressing inferiors. "How much is ice today?"

"Forty cents a hundred, ma'am," said the Iceman.

"Thieves!" exclaimed the woman, and she shortly came out with a huge dishpan in both hands.

"Now, you give me the biggest piece you've got in that wagon for 5 cents—enough to fill this pan—none of your skimpy little pieces," she said in a breath.

The Iceman deposited a piece of ice of the usual nickel proportions in the bottom of the dishpan. The woman continued to hold the pan out expectantly.

"Do you call—have you the impudence to call this a nickel's worth of ice?" asked the woman, trying to fix the Iceman's wandering eye.

"There's a good 15 pounds, there, ma'am, and that's more than—"

"Take your old ice!" exclaimed the woman, and she incontinently dumped

THE ICEMAN GOING TO HIS WORK.
[As the song writer pictures him.]

the hunk of ice out of the dishpan on to the asphalt pavement and strode into her house with her head up.

Just then an organ grinder came around the corner. Some subtle premonition of danger prompted me to move slowly away from the scene. As I rounded the nearest corner I heard the tump, tumpy tump as he began to grind out the familiar melody, "How'd You Like to Be the Iceman?" Then I was glad I left when I did.

About two years ago a traveling salesman kindly gave me a small bottle of Chamberlain's Colic, Cholera and Diarrhoea Remedy. Much to my surprise and delight its effects were immediate. Whenever I felt symptoms of the disease I would fortify myself against the attack with a few doses of this valuable remedy. Tulane's President Is Dead.
Lexington, Va., July 17.—Col. William Preston Johnson, president of Tulane university, New Orleans, died at the home of his son-in-law, Harry St. George Tucker, Sunday. Col. Johnston was the son of Albert Sidney Johnston, killed in command of the confederate forces at Shiloh.

His Memory.
"I tell you," Mr. Billus was saying, "there is nothing like a bunch of keys to develop one's memory. Now I have twenty-seven keys on this ring, and I add a new one every few days; yet I am never at a moment's loss to select the right one when I have occasion to use it."

"What have you got that brass button strung on there for?"
"Um—that was put there by my wife a day or two ago to remind me of some trifling thing I was to get for her, but I've now entirely forgotten what it was."

Human Lives

often depend on physician's prescriptions; hence, a doctor cannot write a prescription without a sense of personal responsibility for his patient's welfare. The number of prominent and successful physicians who daily prescribe

Good Joke on Philadelphia.
The sleepy village of Philadelphia, U. S. A., has evidently not learned to talk Spanish. Colonel Thompson, and the postoffice authorities are laughing over a letter that was returned to the dead letter department in Havana. The letter was sent to the Sr. "Administrador de Correos (postmaster), Philadelphia, Penn.," and is returned with numerous endorsements, such as "General Delivery," "Try Chestnut-st," "Send to Egyptian Consul," "See if John Waramaker knows anything about it," etc. The last endorsement, however, takes the dulce, for the letter is returned marked "No such man in Philadelphia."

TRIES TO KILL HIS FAMILY.

Wealthy Indiana Manufacturer Makes Attempt at Murder.

Marion, Ind., July 17.—James B. Crosby, a wealthy manufacturer of this city, attempted to shoot his wife and family Sunday. They separated last January. Previous to the separation Crosby transferred to his wife stock in the Crosby paper mills and the Marion strawboard mills, which are owned by him. The strawboard trust was trying to crush him, and he did this to better resist it. He succeeded in defeating the trust, and then demanded the return of his stock, but his wife refused to surrender it.

He visited her home Sunday, when she and her six children were at dinner, and demanded the stock. She refused, and he tried to shoot her. The cartridge failed to explode. Mrs. Crosby ran from the house, and a son, 18 years old, attacked the father, who attempted to shoot him. The son secured two revolvers and pursued the father down the street. The latter was saved by a neighbor.

Crosby was arrested and placed under heavy peace bonds. A board to examine into his sanity will be appointed.

To Inspect Pacific Defenses.

Vancouver, B. C., July 17.—Lieut. Lee and Col. Atchikiss have arrived in British Columbia, apparently on a mission of importance. It is reported that they have come west to inspect the defenses at Esquimalt, San Francisco and other points. Lieut. Lee is an attaché of the British legation at Washington. Col. Atchikiss is connected with the military school at Kingston, Ont. It is said these officers will report to the war office a plan of defense for Great Britain and America should a common enemy attack their north Pacific possessions. They are to be joined in their investigations by American officers, according to the reports current here.

Ingalls to Leave Big Four.

Cincinnati, Ohio, July 17.—M. E. Ingalls will soon resign the presidency of the Big Four and C. & O. railroads. He will go east to fill a new position in the railroad world that has been created for him, the title of which has not been determined upon, but his duties will be in the nature of arbitrator for the settling of roads of the country. He will be identified with the Pennsylvania, and the Vanderbilt and Morgan interests, and act as arbitrator or mediator for all the railroads represented. The salary is stated at \$75,000.

TEXAS FLOOD LOSS \$10,000,000

Weather Bureau Says the Rains Were Like Cloudbursts.

Washington, July 17.—A special bulletin has been issued by the weather bureau on the recent flood in the Brazos river district, Texas. The report was prepared by I. M. Cline, in charge of the Texas service of the bureau. In his introduction Prof. Hazen calls attention to the fact that no serious disturbance of the atmosphere is indicated in the daily weather maps during the storm period. In conclusion he says:

"It must be said that, after allowing for all the conditions, we still have a most serious difficulty in accounting for such rains, which are analogous to so-called cloudbursts, about which almost nothing is known."

Mr. Cline's report says: "The flood moved southward very slowly, and it was fourteen days from the time the crest of the flood was noted in Central Texas until it passed out into the Gulf of Mexico."

"The damage to crops has been very great. All crops on the immediate river bottoms from McLennan county south are a total loss. Farming implements, stock and many of the small tenant houses in the bottoms have been washed away. The total losses, judging from press reports and other available information, will aggregate nearly \$10,000,000."

Military Base for Germany.

Washington, July 17.—The state department has received the text of the Spanish-German treaty, under the terms of which the Carolines, except Guam, are ceded to Germany on payment of 25,000,000 pesetas. Since Germany grants Spain the same commercial and agricultural privileges to be enjoyed by the German subjects, it is apparent that the Berlin government's chief object in acquiring the Carolines was to make them a military base in the event of trouble in the Pacific. There is further evidence of this in the reports through military channels that extensive plans are being made to repair and strengthen the obsolete Spanish defenses of the Carolines.

Most Flour Ever Exported.

Washington, July 17.—The millers of the United States have made their banner record in the fiscal year ended June 30, 1899. While wheat, corn, oats, cornmeal, oatmeal, rye, and in fact all lines of breadstuffs, show a reduction in exportation by reason of the decreased demand abroad, flour alone shows an increase, and not only an increase, but reaches the highest point in the history of flour exportation. The total exportation of flour was over 18,000,000 barrels, representing over 80,000,000 bushels of wheat.

For the Court of Arbitration.

The Hague, July 17.—The sub-committee of the arbitration section of the peace conference at Saturday's meeting adopted a resolution that the permanent court of arbitration, should consist of the ministers accredited to Holland, instead of the ministers resident at The Hague. This will have the effect of bringing in the smaller states, whose ministers are accredited to two or more countries simultaneously.

Deputies Guard the Mines.

Birmingham, Ala., July 17.—There was no further trouble at Ishkooda Sunday. Coroner Dallas began his investigation of Saturday night's killing. One negro, Richard Cobb, was killed. Four were wounded, however, and one of them will die. It is the opinion that the striking negro miners did the shooting and the nonunion men have sworn revenge. Sixty deputies are on duty around the mines.

Tin Plate Workers Resume.

Pittsburg, Pa., July 17.—The tin-plate workers throughout the country to the number of 50,000, resumed work today, after an idleness of two weeks. The scale fixed upon at Chicago is based on the price of bars. The minimum advance over last year's scale is placed at 15 per cent, which will prevail until June 30, 1900. In addition to the 15 per cent advance the men will receive a further advance of 2 per cent because of the recent increase of 50

READY FOR EPWORTH LEAGUE.

Indianapolis Will Be Overrun by Methodist Young People.

Indianapolis, Ind., July 17.—The Methodists of this city have arranged to entertain 40,000 members of the International Epworth league, who are expected to attend the convention of the body this week. The work of preparation has gone on for three months, and the committees, after a final survey of the field, felt confident the convention will be the most notable the Methodist young people ever held. The convention does not begin until Thursday, but already a few delegates are coming in. Today the registration headquarters were opened in the state capitol and all the other local machinery set in motion. Forty thousand delegates, if so many come, are to be entertained in homes at the rate of \$1 a day each. The homes opened have been listed alphabetically and the visitors will be escorted to the places assigned them by the reception committee.

The meetings are to be held in a tent, in Tomlinson hall, the Grand opera house, Robert Park's church and in other churches. The big tent, with a seating capacity of 1,200, has been put up in the courthouse yard, opposite Tomlinson hall. It was furnished by the Commercial club of this city. Gov. Mount will join in welcoming the visitors to the state. Numerous rest tents are to be put up near the big tent, to be used in case of sickness or accident. Trained nurses will be on duty at these tents. The work of decorating the meeting places has begun. A large Maltese cross is to be erected over the entrance to the big tent. At least five of the church bishops will be here, and the list of 100 speakers includes many men who have become prominent in the work of the church.

BIG DAMAGES ARE CLAIMED.

Illinois Farmers Want \$500,000 for Injuries to Farms.

Washington, July 17.—A petition was filed here to-day by Henry C. Withers of Carrollton, Ill., claiming damages to the extent of \$500,000. He represents the farmers in Greene, Scott and Pike counties, Illinois, who say their lands along the Illinois river have been damaged by the construction of dams at Kampsville and La Grange. It is the desire of these farmers that these dams be removed before the Chicago sanitary canal is opened, and Gov. Tanner has been requested to postpone the opening of the canal until the dams are removed.

Mr. Withers says he believes the governor will grant the prayer of his clients. He adds that the dams in question have prevented the proper drainage of his clients' farms.

Seven Gold-Seekers Drown.

Seattle, Wash., July 17.—The schooner Genoa Siglin, from Cook's Inlet, Alaska, brings news of the drowning of seven men at Turnagain Arm early in June. The names of only five of them are known, as follows: A. B. JOHNSON, Malone, Ill.; LOUIS PETERSON, Chicago; CHRIS MADISON, Chicago; PORTER, California; HUTCHINSON, Rockford, Ill.

They were crossing the arm in a small boat, which was overturned by a big tidal wave.

"I have used Chamberlain's Cough Remedy in my family for years and always with good results," says Mr. W. R. Cooper of El Rio, Cal. "For small children we find it especially effective." For sale by People's Drug Co.

Kills His Prospective Wife.

Mason City, Iowa, July 17.—Roy Sutton killed Leona Elmore Friday night by shooting her twice through the body. He then shot himself through the head and body, dying from his wounds Saturday afternoon. Both parties were 18 years old. They were to have been married Monday, although the girl's father, David Elmore, was opposed to the match.

From Mrs. Sunter to Mrs. Pinkham.

[LETTER TO MRS. PINKHAM NO. 76,241]
"One year ago last June three doctors gave me up to die, and as I had at different times used your Vegetable Compound with good results, I had too much faith in it to die until I had tried it again. I was apparently an invalid, was confined to my bed for ten weeks. (I believe my trouble was ulceration of womb)."

"After taking four bottles of the Compound and using some of the Liver Pills and Sanative Wash, at the end of two months I had greatly improved and weighed 155 pounds, when I never before weighed over 135. Lydia E. Pinkham's Vegetable Compound is the best medicine I ever used, and I recommend it to all my friends."—MRS. ANNA EYA GUNTER, HIGGINSVILLE, MO.

Mrs. Barnhart Enjoys Life Once More.

"DEAR MRS. PINKHAM—I had been sick ever since my marriage, seven years ago; have given birth to four children, and had two miscarriages. I had falling of womb, leucorrhoea, pains in back and legs; dyspepsia and a nervous trembling of the stomach. Now I have none of these troubles and can enjoy my life. Your medicine has worked wonders for me."—MRS. S. BARNHART, NEW CASTLE, PA.

WINE OF CARDUI

HEALTHY OLD AGE.

LARUE, BENTON CO. ARK., Aug. 4.
I am 49 years old and have been suffering with Change of Life. I had dozing spells so bad that none thought I could live. My husband got me Wine of Cardui and it saved my life. I am like another person since taking it.

MRS. E. B. TOWNSEND.

Wine of Cardui

It is the devout wish of nearly all people to live to a ripe old age. None of us want to die young. This universal desire can be realized if care be taken of the health in early and middle life. A little precaution then will add many years to our existence. Death can be kept away a long time. Happy, healthy old age will be the lot of the woman who promptly corrects the ailments which afflict her sex. In youth, Wine of Cardui will take the female child safely over the dividing line between girlhood and womanhood. As a wife she needs it to help her through the trials of pregnancy and childbirth with as little discomfort as possible. At the Change of Life it will help her over the dangerous place that appears in her pathway between 40 and 50. Then will come many years of truly blissful existence. She will grow old slowly and gracefully. To the last she will preserve that charm and beauty which are always characteristic of perfectly healthy grandmothers. It is for women alone to decide whether they will be healthy or sick. The remedy for their sickness is close at hand.
